

GLOFX

**Gel** GLOVE  
SET

POWERED BY  
LUX

**USER**GUIDE

## 1 INSERT YOUR LIGHTS

Place one Lux Light in each finger of your glove set. Slide each light to the end of the fingertip.

## 2 PUT BOTH GLOVES ON

Slide one glove onto each hand. Slide your fingers past each Lux Light, placing it either on the top or the bottom of each finger.

### COMMON LIGHT PLACEMENT

**A.**  
(Above the finger)

**B.**  
(Below the finger)

## 3 POWER ON

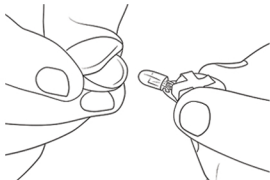

Turn on each Lux Light by pressing the top of the Gel Casing. Hold the button a 2nd time to turn off.

## 4 START GLOVING!

Begin your journey of learning and mastering the art of gloving!

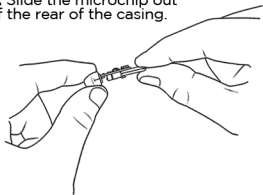

## CHANGING YOUR LUX LIGHT BATTERIES

**1.** Begin by removing all Lux Lights from each finger in your glove set.

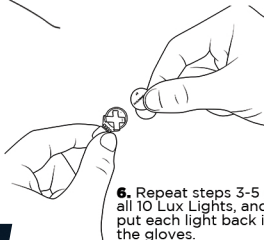

**2.** Pinch the sides of the Gel Casing to open the mouth.

**3.** Slide the microchip out of the rear of the casing.

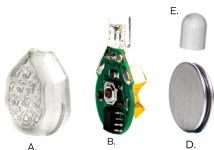

**4.** Take out the old batteries and replace with 2 fresh CR1616 batteries. The "+" side should face up, toward the copper X-clip.

**5.** Re-insert the microchip into the Gel Casing by pinching the casing open and sliding the chip back in.

**6.** Repeat steps 3-5 with all 10 Lux Lights, and then put each light back into the gloves.
